

Langley Field Naturalists presents  
**Cetaceans of the Salish Sea!**

**Date: January 20, Thursday 2022!**

**Time: 7:30 pm - via Zoom!**

**Everyone is welcome!** email: (stewardship@leps.bc.ca)

Come join Tracie Merrill, Education Curator at The Whale Museum in Friday Harbor, Washington State, as she gives a fundamental introduction to the natural history and species of whales, dolphins, and porpoises found in the inland waters of the Salish Sea, or the bodies of waters between Washington State and British Columbia! We'll also listen to the vocalizations of several of these species and learn about the threats facing them and conservation actions we can take to help them!!
